

## Brian Uher

Senior Advisor

### Experience

Mr. Brian Uher is currently a partner and Chief Technology Officer at Energy Conversion Research in Washington, DC. He also maintains CORE/FORM Design Consulting and is a founder and former Director of Amicus Consulting Services in Kensington, MD. His work has focused on demand-side efficiency in the building industry and he has developed methods for incorporating return-on-investment with energy modeling and life cycle analysis to identify and quantify best in class sustainable building techniques. More recently, he has focused on valuation approaches and analysis of market uptake in the multi-family and commercial building sectors. He has spoken widely to the real estate and development communities with a focus on a market-based approach to selling green and high performance building.

### Areas of Expertise

Energy

### Additional Experience

He is a LEED accredited professional, HERS/RESNET certified, BPI analyst and envelope professional and taught the Green Remodeling course for the Washington DC chapter of National Association of the Remodeling Industry. He is also a certified Passive House Consultant (residential and commercial standards).
