

Lechuan Huang

Analyst

Lechuan Huang is an Analyst at Econsult Solutions, Inc. (ESI). He has an educational background in urban planning, receiving his Bachelor of Arts in Public and Urban Affairs from Virginia Tech, and his Master of Urban Spatial Analytics from the University of Pennsylvania. This enabled him to do urban related analysis using various tools and programming languages. While in school, he also assisted in conducting various academic research projects related to urban affairs and published in peer-reviewed journals. Prior to working as a full-time analyst, Lechuan was a geospatial research assistant at ESI. Mr. Huang brings experience in research and quantitative and spatial analysis and is also interested in multimodal transportation and land use.
