

Yingtong (Angel) Zhong

Analyst

Yingtong (Angel) Zhong is an analyst at Econsult Solutions, Inc (ESI). She graduated from the University of Pennsylvania in 2023 with a Master of Science in Social Policy and Data Analytics. In 2020, she graduated from Sun Yat-sen University with a Bachelor of Law in International Politics.

At the University of Pennsylvania, Angel distinguished herself as a data research assistant, adeptly managing expansive datasets. Further, during her stint with the City of Palo Alto, she employed advanced analytics to extract key insights from extensive voter datasets, influencing local political approaches.

In her professional journey, Angel interned with industry giants like Tencent and TikTok, as well as the global real estate firm Cushman Wakefield. As a business and data analyst across these platforms, she has consistently leveraged data to derive strategic insights, driving value and aiding decision-making processes in diverse industry settings.

With hands-on experience in tools like Python, R, and ArcGIS, Angel is well-equipped to manipulate vast datasets, design predictive models, and craft interactive dashboards. All these skills are aimed at one goal: transforming data-driven insights into actionable strategies for businesses and organizations.
